SHADE SOLUTIONS

Shade adds a private oasis feeling to your pool area. If your yard is large enough, consider a pergola, cabana or lanai. If your space doesn't allow for that, check out a retractable awning, or an oversized patio umbrella.

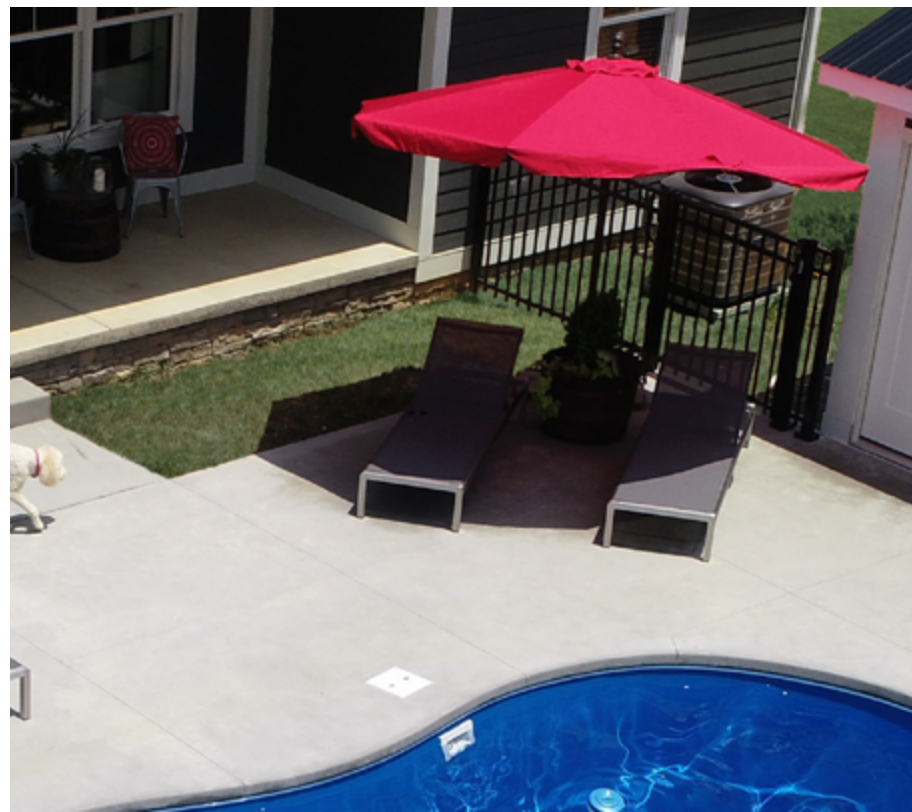

SHADE TYPE:
**OVERSIZED
UMBRELLA**
Large, Portable Shade Areas

Cantilever umbrellas offer the flexibility to move your shade around with your furniture. They provide large areas of shade, but can also be closed to allow sunlight into your furnished spaces. Retractable awnings have the same effect and can be perfect for smaller spaces.

SHADE TYPE:
**MARKET
UMBRELLA**
Small, Portable Shade Areas

Market umbrellas provide smaller areas of shade for those who don't want or need a lot of shade. Some fiberglass pool models will even accommodate an umbrella and chairs right in the pool.

SHADE TYPE:
PERGOLA
Dramatic, Elegant Shade Areas

A pergola makes a statement in your pool area. It offers a welcoming area for entertainment and can provide more shade if you choose to grow climbing plants or drape it with fabric.

SHADE TYPE:
TREES
Natural, Built-In Shade Areas

Mother Nature provides the right balance of light and shade in tree groupings. It's a permanent solution and should be considered for north-facing pool areas, but shade in south-facing pool areas might not allow enough sun.

LANDSCAPING

The right landscaping around your pool will add extra dimension and personality to your oasis. Choose practically when deciding on your plants and trees, decking, rocks and other landscaping materials. Keep in mind howl you plan to use the space now and in the future.

LANDSCAPING: **RAISED DECK** Chill Zones

Raised decks provide a designated chill zone with a view, away from splashing and/or the heat of the sun. They also add a layer of dimension to otherwise flat areas.

LANDSCAPING: **LIGHTING** Mood Enhancers

Whether you use natural fire light, LEDs, or both, lighting can create just the mood you need for a quiet evening with the family or social gathering. Get creative with firepits in pots or rocks to create a natural look. Play with the different LED colors to make a bold and fun backdrop for your social gatherings.

LANDSCAPING: **PLANTS & FLOWERS**

Color & Height

Trees, planted perennials and flowers add splashes of stylish color to complement your pool. Certain evergreen trees and shrubs as well as ornamental grasses provide some height dimension but won't shed leaves into your pool. Potted annual plants also add color and height, and they allow you to easily switch out your color with the seasons.

LANDSCAPING: **STONE**

Naturally Low Maintenance

Using stone as walls, walkways, borders, or in plant beds brings nature into the mix and provides a low maintenance aesthetic that will last years in the outdoor elements.

LANDSCAPING: **WATER FEATURES** Sophisticated Tranquility

Water features such as fountains, waterfalls and spa jets add a level of sophistication to your backyard oasis. The soothing sound of running water induces a sense of relaxation while blocking out other not-so-pleasant neighborhood noises.

TOOLS TO USE

Get the Basics

Make sure everyone enjoys your pool safely by equipping it with the proper handrails, pool cover and lifesaving equipment. Your pool dealer can help you check these items off your list.

SAFETY THOUGHTS:

AUTOMATIC POOL COVERS

Safety and Convenience

Many of our pool designs are automatic pool safety cover-ready. An automatic pool cover gives you the peace of mind of knowing that no one can get in your pool when it's closed - and it keeps your pool cleaner and warmer too!
